EPIDEMIC CONTROL (EPIC) PROJECT

COOPERATIVE AGREEMENT NO.  
7200AA19CA00002

# Assessing the Medical Oxygen Ecosystem: Tools from National to Primary Health Care Levels

A COMPILATION OF RESOURCES

MARCH 2022

This resource was originally developed in 2020 with the generous support of the American people through the U.S. Agency for International Development (USAID) and the U.S. President’s Emergency Plan for AIDS Relief (PEPFAR) through the LINKAGES project (#AID-OAA-A-14-00045). It was updated in April 2021 through the USAID- and PEPFAR-supported Meeting Targets and Maintaining Epidemic Control (EpiC) project.

These tools were developed by Nilufar Rakhmanova, Mirwais Rahimzai, Kate Douglass, Emily Headrick, Melanie Wallentine, Amy Gottlieb, Andrea Surette, Kayla Stankevitz, Hally Mahler, Rebecca Dirks, John Macom, Samuel Anthonio, Ma Belle Siasoco, and Soliman Guirgis. Editing and graphic design were provided by Stevie Daniels and Lucy Harber.

Suggested citation: Meeting Targets and Maintaining Epidemic Control (EpiC). Assessing the medical oxygen ecosystem: tools from national to primary health care levels. Durham (NC): FHI 360; 2022.

This work was made possible by the generous support of the American people through the United States Agency for International Development (USAID). The contents are the responsibility of the EpiC project and do not necessarily reflect the views of USAID or the United States Government. EpiC is a global cooperative agreement (7200AA19CA00002) led by FHI 360 with core partners Right to Care, Palladium International, Population Services International (PSI), and Gobe Group. For more information about EpiC, including the areas in which we offer technical assistance, click [here](#).

## Introduction and How to Use This Resource

The global community has coalesced around the availability and effective delivery of medical oxygen in response to the COVID pandemic. Visions of patients and health care providers facing a limited supply of oxygen have motivated action to better understand the oxygen ecosystem and improve infrastructure and knowledge about medical oxygen supply, demand, and delivery. Many integrated factors allow medical oxygen to be safely and effectively delivered to the right patient at the right time. These factors range from engineering requirements and solutions to health care worker training in both knowledge and skills building. A comprehensive approach to better understand the existing systems and invest in capacity building will create sustainable outcomes for all patients requiring medical oxygen including, but not limited to, those infected with COVID-19.

This collection of tools is a resource to support meaningful assessments and better target effective interventions for those who are building the oxygen ecosystem. A key element of this work is partnership across sectors and groups to optimize opportunities for collaboration, and a recognition that oxygen by itself does not save lives, without knowledge and additional capacity. The tools collected here can be used individually for specific areas or together, as the first section focuses on liquid oxygen at the national level, then an assessment at the hospital level and, finally, the primary care level. By improving the understanding of the gaps and resources related to medical oxygen supply and effective delivery, the goal is for more patients to receive the treatment they need.

# **Section 1.**

## **Liquid Oxygen Assessment Tools: USAID Mission Survey and National Stakeholders**

## Section 1.

### Liquid Oxygen Assessment Tools: USAID Mission Survey and National Stakeholders

The two tools in this section—focused on liquid oxygen (LOX)—are designed to understand the LOX situation at the national level, and identify opportunities to expand supply and delivery. Assessment Tool A is designed to collect information for USAID to understand: (1) current donor investments in medical oxygen (specifically LOX); (2) contact information on key focal people within the government and donors; and (3) documents collected by the Mission pertaining to the LOX system. Assessment Tool B is designed to determine: (1) LOX infrastructure within the health care system and oxygen supply gaps at the country level, (2) governments commitment for investments in LOX, (3) availability of LOX suppliers in-country or in the region, and (4) complementarity to other LOX assistance activities.

These tools will be most useful to groups working to better understand the capacity for and landscape of liquid oxygen at the national level. A major focus is partnership within this sector, recognizing the importance of working together across organizations in this time of collective urgent response. Regulatory systems are also of high importance considering the urgency of building capacity but recognizing the risk of doing so without careful regulation.

## Liquid Oxygen (LOX) Systems: Assessment Tool A – USAID Mission Survey

Assessment Tool A	
<b>Target respondents</b>	USAID Mission staff responsible for overseeing support for COVID-19, particularly for medical oxygen, if such a focal person(s) exists.
<b>Duration to complete</b>	1 week
<b>Purpose</b>	To collect information for USAID to understand: (1) current donor investments in medical oxygen (specifically LOX); (2) contact information on key focal people within the government and donors; and (3) documents collected by the Mission pertaining to these issues.
<b>Key definitions</b>	<p><b>Liquid oxygen (LOX)</b> is highly concentrated oxygen that is stored in a bulk tank, usually weighing over 55 kg (120 lbs.). Bulk liquid oxygen is generated off site, stored in a large tank, and supplied throughout a health facility pipeline system. Tanks require refilling by a liquid oxygen supplier.</p> <p><b>Liquid oxygen system</b> is a system comprised of adequate infrastructure to deliver oxygen in a systematic manner. It includes liquid oxygen manufacturing, costing, supply, regulation, delivery logistics, distribution, a refill management system, other related infrastructure (tanks, piping), and training.</p>

No.	Section I: General information				
GI1	<b>Country</b>		<b>Date/s</b>		
GI2	<b>Person(s) Completing the Tool (EpiC Staff or Consultants)</b>				
	<b>Name</b>	<b>Title</b>	<b>Organization</b>	<b>Phone<sup>1</sup></b>	<b>Email</b>
GI3	<b>Person(s) Interviewed (USAID Mission staff)</b>				
	<b>Name</b>	<b>Title</b>	<b>Organization</b>	<b>Phone</b>	<b>Email</b>

<sup>1</sup> For phone numbers, include international code.

Section 2: USAID and US Government support (E)																															
<b>US1</b>	<p>Has USAID provided in the past, or does USAID currently provide, any support to improve access to medical oxygen, including liquid oxygen, in this country?</p> <p><input type="checkbox"/> Yes  <input type="checkbox"/> No  <i>If No or Don't know, skip to US5.</i></p>																														
<b>US2</b>	<p>Which option(s) best describe(s) past and/or current USAID support for improving access to medical oxygen, including liquid oxygen? If other, please explain. <i>Check all that apply.</i></p> <p><input type="checkbox"/> Donation of PSA/VSA<sup>2</sup> plants  <input type="checkbox"/> Financial support for the procurement of medical oxygen  <input type="checkbox"/> Support for oxygen storage equipment (cylinders, tanks, etc.)  <input type="checkbox"/> Support for transport of medical oxygen  <input type="checkbox"/> Support for basic infrastructure (e.g., hospital piping)  <input type="checkbox"/> Support for procurement of consumables for oxygen delivery to patients  <input type="checkbox"/> Concentrators  <input type="checkbox"/> Clinical training on medical oxygen  <input type="checkbox"/> Non-clinical training (maintenance, installation)  <input type="checkbox"/> Other _____</p>																														
<b>US3</b>	<p>Where did/does USAID provide support to improve access to liquid oxygen?</p> <table border="1"> <thead> <tr> <th>Province</th> <th>District</th> <th>Facility Name</th> </tr> </thead> <tbody> <tr><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td></tr> <tr><td> </td><td> </td><td> </td></tr> <tr> <td><input type="checkbox"/></td> <td> </td> <td> </td> </tr> </tbody> </table>	Province	District	Facility Name													<input type="checkbox"/>														
Province	District	Facility Name																													
<input type="checkbox"/>																															
<b>US4</b>	<p>Please provide points of contact (POC) of Implementing Partner (IPs) working with USAID on improving access to medical oxygen, including liquid oxygen, in country.</p> <table border="1"> <thead> <tr> <th>Name of the IP/Organization</th> <th>POC name</th> <th>Title</th> <th>Phone</th> <th>Email</th> </tr> </thead> <tbody> <tr><td> </td><td> </td><td> </td><td> </td><td> </td></tr> </tbody> </table>	Name of the IP/Organization	POC name	Title	Phone	Email																									
Name of the IP/Organization	POC name	Title	Phone	Email																											

<sup>2</sup> Pressure Swing Adsorption (PSA) and Vacuum Swing Adsorption (VSA) plants are alternatives to cryogenic plants that produce LOX

No.	Section 3: Additional information (E)		
US5	Please provide information on various donors or non-USAID partners involved in providing support to improve access to liquid oxygen and PSA plants. Specify type of support they provide(d).		
	Name of the Donor or International Partner	Type of Work It Supports	Name/Email
US6	Are any other USG agencies supporting access to medical oxygen, including liquid oxygen? <i>If yes, please name.</i>	Name of the US Agency	POC's name Email and Phone
US7	Can you share any in-country documents, tools, or resources related to medical oxygen, including liquid oxygen? Or can you direct us to where we can access these? <i>Please list and say where they can be accessed.</i>  <i>Note: this includes any documents that are developed in the country and or adapted from international sources (WHO, UN, etc.) for LOX in the country. You will use these documents to complete Tool B.</i>	Name of the Document/Tool	Where Can We Access It (e.g., Website, POC)
US8	Can you direct us to which individual(s) in the government (MOH, Ministry of Industry, or other government agency) is/are working on medical oxygen, including liquid oxygen supply, import, and distribution?  <i>We will interview government and other partners to learn about government's commitment, assess the medical oxygen gap, and identify opportunities to expand access to liquid oxygen. Please name the agencies, contact persons, etc.</i>	Name of the Ministry/ Department	POC's Name Email and Phone

<b>US9</b>	<b>Is there any other information you would like to share that may be useful for this assessment? (e.g., names and contact information of other donors or international organizations supporting medical oxygen ecosystem). <i>Please list.</i></b>	<b>Name of the US Agency</b>	<b>POC's Name</b>	<b>Email and Phone</b>
		Other information:		

***Thank you for your time and for the information shared.***

## Liquid Oxygen (LOX) Systems: Assessment Tool B – National Stakeholders

Assessment Tool B	
<b>Target respondents</b>	<p><b>Key respondents:</b> Staff from government institutions, regulatory bodies, the industry, committees, and various other government stakeholders dealing with medical oxygen</p> <p><b>Complementary respondents:</b> International organizations (e.g., WHO, UNICEF, CHAI, PATH, USAID implementing partners, others involved) and domestic organizations, major oxygen supplier in the country</p>
<b>Duration to complete</b>	2 weeks
<b>Purpose</b>	To determine: (1) LOX infrastructure within the health care system and oxygen supply gaps at the country level, (2) government commitment for investments in liquid oxygen (LOX), (3) availability of LOX suppliers in-country or in the region, and (4) complementarity to other LOX assistance activities.
<b>Key definitions</b>	<p><b>Liquid oxygen (LOX)</b> is highly concentrated oxygen that is stored in a bulk tank, usually weighing over 55 kg (120 lbs.). Bulk liquid oxygen is generated off site, stored in a large tank, and supplied throughout a health facility pipeline system. Tanks require refilling by a liquid oxygen supplier.</p> <p><b>Liquid oxygen system</b> is a system comprised of adequate infrastructure to deliver oxygen in a systematic manner. It includes liquid oxygen manufacturing, costing, supply, regulation, delivery logistics, distribution, a refill management system, other related infrastructure (tanks, piping), and training.</p>

Section 6: Liquid Medical Oxygen Storage and Distribution Capacity				
<b>SD1</b>	<p><b>What is the estimated total storage capacity of the Ministry of Health for liquid medical oxygen?</b></p> <p><i>Note: If another entity (may be private) is storing LOX for health facilities, state the name of the agency. If data are not immediately available, ask them to estimate.</i></p>	<b>Name of Agency</b>	<b>Capacity in Metric Tons</b>	<b>Cumulative Storage Capacity of All Hospitals</b>
		<input type="checkbox"/> Don't know		
<b>SD2</b>	<p><b>How many cryogenic tank containers are available in-country for transporting liquid medical oxygen?</b></p> <p><i>Note: Cryogenic (ISO) tanks are storage containers used for storing liquid medical oxygen at a very low temperature. Estimate if necessary.</i></p>	<p>Number of ISO tank containers _____</p> <p><input type="checkbox"/> Don't know</p> <p><i>If Don't know, skip to SD5.</i></p>		
<b>SD3</b>	<p><b>How many cryogenic tanks are owned by the Ministry of Health or another responsible government entity?</b></p> <p><i>Estimate if necessary.</i></p>	<p>Number owned _____</p>		
<b>SD4</b>	<p><b>How many cryogenic tanks are rented by the Ministry of Health from a nongovernment source?</b></p> <p><i>Estimate if necessary.</i></p>	<p>Number rented _____</p>		
<b>SD5</b>	<p><b>Does shortages of trucks or tanks limit the use of liquid medical oxygen in-country?</b></p>	<p><input type="checkbox"/> Yes (please explain): _____</p> <p>_____</p> <p>_____</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> Don't know</p>		
<b>SD6</b>	<p><b>Does quality of the roads and/or ports affect the use of liquid medical oxygen in-country?</b></p> <p><i>Note: Road networks are important for overland transport of liquid oxygen between plants, storage tanks, and facilities. Seaports are important for overseas transport of liquid medical oxygen from other countries.</i></p>	<p><input type="checkbox"/> Yes (please explain): _____</p> <p>_____</p> <p>_____</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> Don't know</p>		

No.	Section 7: Interest of the Government in Liquid Medical Oxygen System Capacity, Gaps, and Complementarity to Other Oxygen Assistance Activities	
SC1	<p><b>Is the Ministry of Health or other government agency interested in setting up or expanding their use of liquid medical oxygen?</b></p>	<p><input type="checkbox"/> Yes  <input type="checkbox"/> No  <input type="checkbox"/> Don't know            Explain: _____  <i>If No or Don't know, skip to SC3.</i></p>
SC2	<p><b>How is the Ministry of Health or other government agency demonstrating its commitment to setting up or expanding its use of liquid medical oxygen?</b></p> <p><i>Check all that apply.</i></p>	<p><input type="checkbox"/> Increased Government Budget  <input type="checkbox"/> Supporting Domestic Suppliers  <input type="checkbox"/> Other: _____</p>
SC3	<p><b>Has your country faced any shortages of medical oxygen in the past 24 months?</b></p> <p><i>If yes, please explain how long the country experienced a shortage. How many facilities were affected? What were the reasons?</i></p>	<p><input type="checkbox"/> Yes  <input type="checkbox"/> No  <input type="checkbox"/> Don't know            If yes, please explain: _____            _____</p>
SC4	<p><b>Has there been any increase in the price of medical oxygen in the past year? If yes, what was the start price and what was the end price?</b></p> <p><i>Please provide an estimated average or range.</i></p>	<p><input checked="" type="checkbox"/> Yes  <i>If yes, what was the average start price? _____</i>  <i>What was the average end price? _____</i>  <input type="checkbox"/> No  <input type="checkbox"/> Don't know</p>
SC5	<p><b>What are the challenges faced by the Ministry of Health or other government agencies in setting up and maintaining a national liquid medical oxygen supply and distribution system?</b></p> <p><i>Please provide details for checked responses in the space below.</i></p>	<p><input type="checkbox"/> No liquid oxygen manufacturing  <input type="checkbox"/> Unsustainable supply  <input type="checkbox"/> Poor transport infrastructure to deliver  <input type="checkbox"/> Inadequate distribution to hospitals  <input type="checkbox"/> High cost to patient  <input type="checkbox"/> Inadequate refill management system by liquid oxygen supplier  <input type="checkbox"/> Poor or no infrastructure (bulk storage tanks, bedside piping outlets, ambient air vaporizer, backup cylinder supply)  <input type="checkbox"/> Safety concerns (risk of gas leakage from piping system)  <input type="checkbox"/> Lack of clinical and biomedical training</p> <p>Additional details for selected responses:            _____</p>

SC6	What support would be needed for the country to increase access, use, and maintenance of liquid medical oxygen?	Explain: _____ _____											
SC7	Is the Ministry of Health receiving any assistance from donors, development banks, or international organizations to strengthen the medical oxygen ecosystem, especially liquid oxygen? If yes, please list the donors and describe the focus of their support.	<table border="1"> <thead> <tr> <th data-bbox="850 360 1137 439">Assisting Organization's Name</th> <th data-bbox="1137 360 1436 439">Type of Support</th> </tr> </thead> <tbody> <tr> <td data-bbox="850 439 1137 488"> </td> <td data-bbox="1137 439 1436 488"> </td> </tr> <tr> <td data-bbox="850 488 1137 537"> </td> <td data-bbox="1137 488 1436 537"> </td> </tr> <tr> <td data-bbox="850 537 1137 586"> </td> <td data-bbox="1137 537 1436 586"> </td> </tr> <tr> <td data-bbox="850 586 1137 636"> </td> <td data-bbox="1137 586 1436 636"> </td> </tr> </tbody> </table>	Assisting Organization's Name	Type of Support									
Assisting Organization's Name	Type of Support												
SC8	Are there any additional challenges or considerations related to strengthening access and use of liquid medical oxygen that you would like to share?	Explain: _____ _____											

*Thank you for your time and for the information shared.*

## **Section 2.**

# **Oxygen and COVID-19 Response Rapid Assessment Tool: Hospital Facilities**

## Section 2.

### Oxygen and COVID-19 Response Rapid Assessment Tool: Hospital Facilities

This tool, designed for hospital facility administrators to conduct a targeted yet thorough assessment of multiple facility-level components of COVID-19 preparedness, inquires about basic information related to COVID-19 clinical care with a focus on medical oxygen infrastructure and service delivery. Intended to be complementary rather than duplicative of other assessment tools, it incorporates some additional components (i.e., human resources) that impact clinical service delivery. The goal is to identify potential areas for investment and support in the face of the ongoing COVID-19 pandemic, recognizing the likelihood of recurrent surges, the shifting focus on appropriate—often decentralized—care for noncritically ill patients, and the need for resilient and sustainable health systems.

The historical time frames ask about the status of these indicators today, with some indicators asking about averages or numbers in the last four weeks, or the last six months. Some questions ask about indicators at the time of a facility's last "surge."

**\*\* "Surge" is defined as the day with the highest number of patient encounters or the last highest hospital census day (may be within period of days or weeks) directly related to a local surge of COVID-19 cases *within the last six months*. Please indicate the most recent "surge" and use that day or time frame to answer other questions about surge indicators.\*\***

Finally, this tool is modular. The first five sections are required, with an appendix of optional sections. Users are encouraged to choose sections relevant to their own needs and customize adaptation for maximal impact.

## Oxygen and COVID-19 Response Rapid Assessment Tool: Hospital Facilities

Section 1: DEMOGRAPHICS (required)		
1.1	Name of the hospital	
1.2	Address (include district and region)	
1.3	Level of hospital	
1.4	Type of hospital:	<input type="checkbox"/> Private hospital <input type="checkbox"/> Public (government hospital) <input type="checkbox"/> Nongovernmental (NGO) <input type="checkbox"/> Other _____
1.5	Is your facility designated as a COVID-19 referral facility?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know
1.6	When was the last surge of COVID-19 at your facility? (DD/MM/YY) <i>** See definition above; use this timepoint to answer future questions that inquire about "surge"</i>	____/____/____ DD / MM /YY
1.7	Catchment area population:	
1.8	If this assessment is completed by interview: - Name, title, and length of employment of interviewee	
1.9	- Name, title, organization of the interviewer	
1.10	If self-assessment, who completed self-assessment? - Name, title, length of employment	

Section 2: GENERAL FACILITY INFORMATION (required)		
Completed by (name, title): _____		
2.1	Total number of functional adult hospital beds	
2.2	Total number of functional adult beds with piped oxygen (wall-access)	
2.3	Total number of functional beds assigned for COVID-19 patients	
2.4	Total number of functional designated intensive care (ICU) beds	<input type="checkbox"/> None <input type="checkbox"/> <5 <input type="checkbox"/> 5-20 <input type="checkbox"/> 21-50 <input type="checkbox"/> > 50 (specify: _____)
2.5	Number of ICU beds currently allocated for COVID-19 patients	This week: ____ Week of last surge: ____
2.6	In the last six months, approximately how many critically ill patients (not with COVID-19) have not been able to be admitted to an ICU bed due to full units?	<input type="checkbox"/> 0-10 <input type="checkbox"/> 11-50 <input type="checkbox"/> 51-100 <input type="checkbox"/> >100
<b>The following section inquires about the average daily patient census within the last seven days, and the week of highest "surge" as defined in Question 1.6. These questions are asking about all patients, not only those presenting for suspected or confirmed COVID-19 care.</b>		
2.7	Estimated emergency/casualty patients per day	Last 7 days: ____ Week of last surge: ____
2.8	Estimated outpatient department patients per day	Last 7 days: ____ Week of last surge: ____
2.11	Total # hospital patients admitted per day	Last 7 days: ____ Week of last surge: ____
2.12	Unplanned/new admissions	Last 7 days: ____ Week of last surge: ____
2.13	Planned surgeries/admissions	Last 7 days: ____ Week of last surge: ____
2.14	How many COVID-19 patients are admitted per day?	Last 7 days: ____ Week of last surge: ____

2.15	What is the average length of stay (in days) for patients admitted for management of COVID-19?				
2.16	How far away is the nearest facility (in km) providing comparable levels of COVID-19 clinical care?				
2.17	During the last surge, did you run out of hospital beds for admitted COVID-19 patients?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Don't know	
2.18	In the last six months, what happened to a patient who needed admission for COVID-19 care but there were no available beds for admission? <input type="checkbox"/> Patients were held/boarded in a separate area until a bed became available <input type="checkbox"/> Patients were directed to the nearest health facility with available beds <input type="checkbox"/> Patients were transported to another health facility with available beds <input type="checkbox"/> Patients were turned away <input type="checkbox"/> Other _____				
2.19	Approximately what percentage of admitted COVID-19 patients never require supplemental oxygen, or only require supplemental oxygen for a few hours during their length of admission?	None	1-25% (some)	26-75% (many)	>75% (most)
2.20	Approximately what percentage of admitted COVID-19 patients require no more than 5L oxygen/min at any point in their admission?	None	1-25% (some)	26-75% (many)	>75% (most)
2.21	Approximately what percentage of admitted COVID-19 patients require more than 5L oxygen/min at any point in their admission (do not include patients who require invasive ventilation)?	None	1-25% (some)	26-75% (many)	>75% (most)
2.22	Do you have PCR COVID-19 testing laboratory in the hospital? If NO, how far is the nearest (in km) PCR testing laboratory?	<input type="checkbox"/> Yes <input type="checkbox"/> No; distance _____ (km)			
2.23	What is the PCR turnaround time (for patients tested in hospital)?	<input type="checkbox"/> <24 hours	<input type="checkbox"/> 24-72 hours	<input type="checkbox"/> >72 hours	
2.24	Do you have rapid COVID-19 antigen diagnostic testing (RDT) available at your facility?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know			
	a. If YES, what departments utilize RDTs?	<input type="checkbox"/> Triage area <input type="checkbox"/> Outpatient department <input type="checkbox"/> Emergency department <input type="checkbox"/> Wards/inpatient <input type="checkbox"/> Others: _____			
2.25	Is there a designated triage station or separate screening tent at the facility entrance to identify patients with signs or symptoms of COVID-19?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown	
2.25	Is there a designated area for immediate isolation of patients presenting to the hospital with confirmed or suspected COVID-19?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown	
2.26	Does your facility have a triage protocol for confirmed or suspected COVID-19 patients?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown	
2.27	Does your facility have an admissions protocol (clinical criteria to admit confirmed/suspected COVID-19 patients)?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown	
2.28	Does your facility follow a standardized oxygen administration protocol (for COVID-19 and non-COVID-19 patients)?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown	
2.29	If YES, is it from a national guideline?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown	
2.30	If YES to question 2.28, is there a specific protocol for COVID-19 patients?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown	

<b>2.31</b>	Do you have equipment for tele-consultation or telehealth in the hospital? <i>This is defined as a dedicated set of equipment to virtually connect (audio and/or video) clinical staff with either patients or other clinical staff to render or coordinate care.</i>	<input type="checkbox"/> Yes (If YES, proceed to a, b, c) <input type="checkbox"/> No		
<b>2.31a:</b>	Is this equipment functional?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown
<b>2.31b:</b>	Is this equipment in use?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown
<b>2.31c:</b>	Is it used for COVID-19 care?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Unknown

### Section 3A: HUMAN RESOURCES: STAFFING AND RATIOS (required)

This section inquires about ideal conventional staffing ratios, current staffing levels, as well as staffing ratios that occurred during the highest census count ("surge") the facility experienced as defined in Question 1.6

Completed by (name, title):

	Total Number (approx.)	Gender			Conventional Ratio Patient/Provider	Current Ratio Patient/Provider	Surge Ratio Patient/Provider
		M	F	Non-Binary			
<b>3a1</b>	Doctors						
<b>3a2</b>	Nurses						
<b>3a3</b>	Critical care doctors						
<b>3a4</b>	Critical care nurses						
<b>3a5</b>	Non-physician providers						
<b>3a6</b>	Respiratory therapists						
<b>3a7</b>	Anesthesiologists						
<b>3a8</b>	Anesthesia technicians						
<b>3a9</b>	Other clinical support staff						

**Section 3B: HUMAN RESOURCES: TRAINING (required)**

This section inquires about dedicated training events attended by the health care workforce of this facility within the last six months. This includes in-services, webinars, training from external organizations, etc. You may add or modify cadres to reflect your facility’s designation.

Completed by (name, title): \_\_\_\_\_

		# Trained in clinical management of mild to moderate COVID-19	# Received training in IPC and PPE in the context of COVID-19	# Received training in clinical management of severe COVID-19 patients	# Received training in appropriate use of medical oxygen
<b>3b1</b>	Doctors				
<b>3b2</b>	Nurses				
<b>3b3</b>	Critical care doctors				
<b>3b4</b>	Critical care nurses				
<b>3b5</b>	Non-physician providers				
<b>3b6</b>	Respiratory therapists				
<b>3b7</b>	Anesthesia doctors				
<b>3b8</b>	Anesthesia technicians				
<b>3b9</b>	Other clinical support staff				

<b>3b10</b>	How many biomedical technicians does your hospital have?				
<b>3b11</b>	How many biomedical technicians does your facility need to meet the demand for repairs and maintenance?				
<b>3b12</b>	How many of the biomedical technicians have had dedicated training on medical oxygen equipment operation and maintenance within the last six months?				
<b>3b13</b>	In the last six months, approximately what percentage of the biomedical technicians have had dedicated training in the following:	<b>0 (none)</b>	<b>&lt;25% (some)</b>	<b>26-75% (many)</b>	<b>&gt;75% (most)</b>
	a. Medical oxygen equipment basic installation and operation				
	b. Medical oxygen equipment standard maintenance				
	c. Medical oxygen equipment malfunction diagnostics and repair				

## Section 4. MEDICAL OXYGEN AVAILABILITY AND INFRASTRUCTURE (required)

This section aims to assess the supply of oxygen to the facility, delivery of oxygen around the facility, maintenance and repair considerations, and experiences with shortages, disrepair, or other challenges.

Completed by (name, title): \_\_\_\_\_

4.1	How many functional oxygen cylinders does this facility have?	# 5- to 39-liter cylinders: _____ # 40+ liter cylinders: _____
4.2	How many additional oxygen cylinders does your facility need for COVID-19 patients? <i>(based on last "surge" as defined in Q1.6)</i>	# 5- to 39-liter cylinders: _____ # 40 plus-liter cylinders: _____
4.3	How many oxygen concentrators do you have?	
4.4	How many of the oxygen concentrators are currently functional?	
4.5	How many concentrators produce 6-10 Liters oxygen/min?	Total: _____                      Functional: _____
4.6	How many concentrators generate 1-5 Liters oxygen/min?	Total: _____                      Functional: _____
4.7	How many more concentrators does the hospital need for COVID-19 patients (based on last surge)?	
4.8	Does this facility use a PSA plant?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
4.9	Is the PSA plant fully functional?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
4.10	If NO, what is the reason the PSA plant is not functional? <input type="checkbox"/> In disrepair <input type="checkbox"/> Lack of operations/maintenance staffing <input type="checkbox"/> Power supply disruption <input type="checkbox"/> Unknown <input type="checkbox"/> Other: _____	
4.11	Do you have a resource to procure spare parts for the PSA plant?	<input type="checkbox"/> Yes, always <input type="checkbox"/> Yes, sometimes <input type="checkbox"/> No <input type="checkbox"/> Unknown
4.12	Does the hospital use liquid oxygen (LOX) supply to a large tank?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
4.13	What is the capacity of the LOX storage tank (volume)?	
4.14	How much liquid oxygen (LOX) is supplied to hospital per average week via a large storage tank? (volume)?	
4.15	How much liquid oxygen (LOX) is supplied in cylinders in an average week?	a. Total volume/week: _____
		b. # of cylinders: _____
		c. Size of cylinders: _____
4.16	Have you ever completely run out of oxygen in the last six months?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
4.17	If YES, how many times in the last 6 months?	
4.18	If YES, please select a reason why you ran out of oxygen: <i>(Check all that apply)</i> <input type="checkbox"/> Supplier did not have oxygen <input type="checkbox"/> Disruption in transportation or delivery of oxygen <input type="checkbox"/> Shortage of cylinders <input type="checkbox"/> Malfunction of equipment for filling or transporting oxygen cylinders <input type="checkbox"/> Malfunction of facility-level equipment (i.e., had oxygen, but could not deliver to patients due to on-site malfunction) <input type="checkbox"/> Unknown <input type="checkbox"/> Other: _____	

4.19	On average, how many days before oxygen supply was restored?	
4.20	Does your hospital have functioning oxygen piping system? (pipes from the source to patient bed)	<input type="checkbox"/> Yes, fully functional <input type="checkbox"/> Yes, partially functional <input type="checkbox"/> No <input type="checkbox"/> Unknown
4.21	What problems do you have with the hospital medical oxygen piping system? <i>(Select all that apply)</i> <i>(You can expand or explain further at the end of this document if needed.)</i> <ul style="list-style-type: none"> <li><input type="checkbox"/> National, regional, or supplier shortages of oxygen</li> <li><input type="checkbox"/> National, regional, or supplier shortages of equipment to deliver oxygen to facility</li> <li><input type="checkbox"/> National, regional, or supplier shortages for necessary equipment at your facility</li> <li><input type="checkbox"/> National, regional, or supplier shortages of spare parts for repairs</li> <li><input type="checkbox"/> Lack of trained personnel to install or repair equipment</li> <li><input type="checkbox"/> Unknown</li> <li><input type="checkbox"/> Other: _____</li> </ul>	
4.22	What is the average monthly cost of your facilities' oxygen system? <b>a.</b> If known, average monthly cost of oxygen: <b>b.</b> If known, average monthly cost of maintenance and repairs:	_____ _____ _____
4.23	Do you think your oxygen supply/system will be adequate if you have another surge of COVID-19 patients?	<input type="checkbox"/> Yes <input type="checkbox"/> No
4.24	If NO, which best describes your main concern? <ul style="list-style-type: none"> <li><input type="checkbox"/> We cannot procure oxygen from a supplier</li> <li><input type="checkbox"/> We cannot procure equipment to deliver the oxygen around the facility</li> <li><input type="checkbox"/> We cannot procure the equipment to get the oxygen to patients</li> <li><input type="checkbox"/> We have equipment in disrepair and cannot procure new or spare parts</li> <li><input type="checkbox"/> We have equipment in disrepair, but no technicians trained to service it</li> <li><input type="checkbox"/> We have regular power supply issues interrupting oxygen delivery</li> <li><input type="checkbox"/> Our clinicians are not trained appropriately in use of medical oxygen</li> <li><input type="checkbox"/> Other: _____</li> </ul>	
4.25	What is the name of your primary oxygen supplier?	
4.26	Approximately how far is the oxygen supplier from the hospital? (km)	
4.27	How much oxygen does this company produce and supply every month? (cubic meters)	
4.28	What is the cost per cubic meter (estimate)?	
4.29	Who pays for the oxygen?	<input type="checkbox"/> Hospital/facility <input type="checkbox"/> Ministry of Health <input type="checkbox"/> Private sector <input type="checkbox"/> NGO/grant funding <input type="checkbox"/> Other: _____

**Section 5. MEDICAL EQUIPMENT, SUPPLIES, AND CONSUMABLES (required)**

This section inquires about medical equipment, supplies, and consumables required to safely deliver oxygen directly to patients.

Completed by (name, title): \_\_\_\_\_

5.1	How many ventilators does your facility have?				
5.2	How many ventilators are currently functional?				
5.3	If any of the ventilators are not functional, why not? <input type="checkbox"/> Never functional/never been used <input type="checkbox"/> Ventilator in disrepair, reason unknown <input type="checkbox"/> Ventilator in disrepair, but no technician to repair <input type="checkbox"/> Need spare parts but cannot procure <input type="checkbox"/> Accessory issue: dysfunction or lack of accessories <input type="checkbox"/> Unknown <input type="checkbox"/> Other _____				
5.4	How many ventilators are currently in use at the time of this assessment?	a. Total #: _____ b. # for COVID-19 patients: _____			
The following questions ask about the availability of equipment in your facility. You can choose what percentage of time these items are available or answer "never, sometimes, most of the time, almost always." (Mark with an X.)		Never	Sometimes (25-50%)	Most of the time (50-75%)	Almost always (>75%)
5.5	What percentage of time is a pulse oximeter available for COVID-19 patients?				
5.6	What percentage of time is the appropriate patient circuit (tubing) available for COVID-19 patients requiring medical oxygen?				
5.7	What percentage of time is a basic nasal cannula available for COVID-19 patients requiring supplemental oxygen therapy?				
5.8	What percentage of time high-flow nasal cannula is available for COVID-19 patients who require high-flow medical oxygen?				
5.9	What percentage of time an oxygen delivery mask is available for a COVID-19 patient requiring medical oxygen?				
5.10	What percentage of time a multiparametric patient monitor is available for COVID-19 patients?				
5.11	What percentage of time are oxygen flowmeters available for COVID-19 patients?				
5.12	How many functional flowmeters does your facility currently have?				
5.13	Have you ever needed more flowmeters in the past six months?	<input type="checkbox"/> If Yes, specify how many: _____		<input type="checkbox"/> No	<input type="checkbox"/> Unknown
5.14	How many oxygen pressure regulators (used for cylinders) do you have?				
5.15	Have you ever needed more pressure regulators in the past six months?	<input type="checkbox"/> If Yes, specify how many: _____		<input type="checkbox"/> No	<input type="checkbox"/> Unknown
5.16	Do you have uninterrupted electricity to the hospital?	<input type="checkbox"/> Yes		<input type="checkbox"/> No	<input type="checkbox"/> Unknown
5.17	If NO, what is the average frequency of interruption per month?				
5.18	What is the average length (in hours) of a typical interruption of electricity?				

5.19	Do you have a functioning back-up generator? a. If YES, how many hours can your generator support your facility's electricity needs?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown a. _____			
5.20	How frequently, or what percentage of time is the following personal protective equipment (PPE) available for health facility staff in the last 4 weeks?	<b>Never, or very rarely</b>	<b>Sometimes (25-50%)</b>	<b>Most of the time (51-76%)</b>	<b>Almost always (&gt;75%)</b>
	N95 respirator mask				
	Surgical mask				
	Face shield				
	Gown				
	Gloves				
	Overall				
	Water and soap				
	Hand sanitizer				
5.21	Do you have enough PPE to consistently protect all health care workers in the event of another surge of COVID-19? (Use your highest surge census day as a benchmark)	<input type="checkbox"/> Yes <input type="checkbox"/> No. Please explain if desired: _____			

***Thank you for your time and for the information shared.***

## Rapid Assessment Tools: Optional Appendices

The following assessments may be considered optional, but are encouraged. Please complete the Perinatal/Pediatrics section if your facility cares for these patient populations.

### Section 6. WELLNESS/MENTAL HEALTH (optional)

These questions are intended for administrators to provide some information for how mental health and burnout among the health care work force has been addressed before and during the COVID-19 pandemic. Please enter N/A if not applicable, or your facility has not made specific changes.

Completed by (name, title):

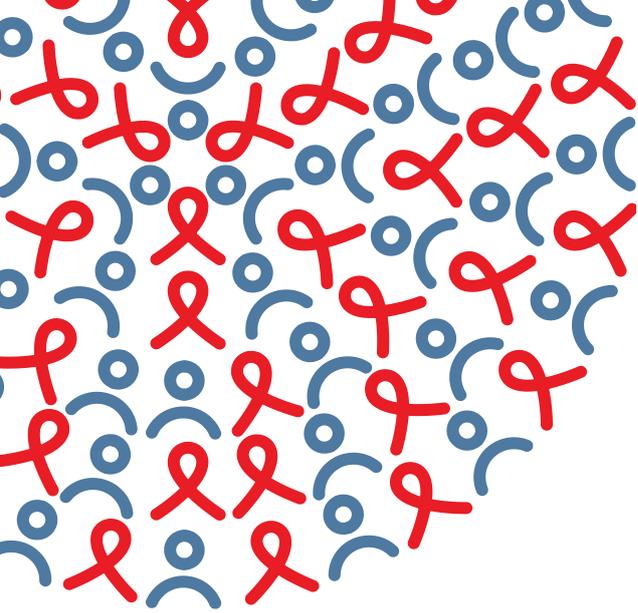

6.1	Has your facility or health care organization formally considered interventions to address mental health, wellness, and/or burnout among health care workers and staff?	<input type="checkbox"/> Yes, prior to the pandemic <input type="checkbox"/> Yes, during the pandemic <input type="checkbox"/> Yes, and we plan to continue after pandemic <input type="checkbox"/> No, but we are considering such interventions <input type="checkbox"/> No, not considering
6.2	Has your organization changed any of the following since the start of the COVID-19 pandemic?	<input type="checkbox"/> Work hours for health care workers <input type="checkbox"/> Salary changes <input type="checkbox"/> Staffing/ratio changes, or task shifting <input type="checkbox"/> Security measures to protect health care workers <input type="checkbox"/> Policy change, or other support for health care workers to miss work if they are feeling unwell <input type="checkbox"/> Changes to physical environment (e.g., spacing to allow for physical distancing, or cohorting of patients)
6.3	Has your organization implemented any of the following interventions?	<input type="checkbox"/> Wellness initiatives (general) <input type="checkbox"/> Specific initiatives to prevent burnout <input type="checkbox"/> Peer support/clinician peer group development <input type="checkbox"/> Access to formal mental health services (therapy, psychiatry) <input type="checkbox"/> Specific interventions to support women (who compose 70% of the global health workforce)
6.4	In the last six months, has the organization screened health care staff for signs of poor mental health and/or burnout?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> I don't know
6.5	<p><b>If you answered "NO" to any of these questions:</b></p> <p><b>6.5a.</b> Do you feel that health care worker burnout is impacting patient care?</p> <p><b>6.5b.</b> Are you interested in specific technical assistance for health care worker mental health, well-being, and burnout prevention?</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No  <input type="checkbox"/> Yes <input type="checkbox"/> No

### Section 7: Special Populations: PERINATAL AND PEDIATRICS (optional)

This section is designed to assess the facilities' capacity for perinatal and/or pediatric care relevant to COVID-19 care and medical oxygen therapy. Please skip if your facility does not manage perinatal or pediatric cases.

Completed by (name, title): \_\_\_\_\_

7.1	Does your facility have a perinatal unit (intrapartum, postpartum, and surgical obstetric services)?	<input type="checkbox"/> Yes <input type="checkbox"/> No
7.2	How many beds?	
7.3	How many beds have medical oxygen delivery systems?	
7.4	How many live deliveries per year?	
7.5	How many perinatal patients had required surgical interventions (i.e., Cesarean section) in the last six months?	
7.6	How many postpartum hemorrhages in the last six months?	
7.7	How many maternal deaths in the last six months?	
7.8	How many doctors are currently assigned to perinatal ward?	
7.9	How many midwives are currently assigned to the perinatal ward?	
7.10	How many nurses are assigned to the perinatal ward?	
7.11	How many pregnant patients have been admitted with COVID-19 in the last six months?	
7.12	How many pregnant patients with COVID-19 have required medical oxygen therapy in the last six months?	
7.13	On average, what percentage of perinatal patients have needed oxygen but didn't receive it in the last six months? ( <i>Select one</i> )	<input type="checkbox"/> <50% <input type="checkbox"/> 50-75% <input type="checkbox"/> 76-100%
7.14	What is the highest number of perinatal patients admitted at any point in the last six months?	
7.15	Does your facility have a pediatric unit?	<input type="checkbox"/> Yes <input type="checkbox"/> No
7.16	How many beds?	
7.17	How many pediatric beds have piped (wall-access) medical oxygen delivery systems?	
7.18	How many patients under age 5 have required medical oxygen therapy in the last six months?	
7.19	How many patients under age 5 have been admitted with COVID-19 in the last six months?	
7.20	How many patients under age 12 admitted for COVID-19 have required medical oxygen therapy in the last six months?	
7.21	What is the highest number of patients under age 12 admitted during your last surge (defined in Q1.6)?	
7.22	On average, what percentage of pediatric patients have needed oxygen but didn't receive it in the last six months? ( <i>Select one</i> )	<input type="checkbox"/> <50% <input type="checkbox"/> 50-75% <input type="checkbox"/> 76-100%

### **Section 3.**

## **Oxygen and COVID-19 Response Rapid Assessment Tool: Primary Care Facilities**

## Section 3.

### Oxygen and COVID-19 Response Rapid Assessment Tool: Primary Care Facilities

This tool, designed for primary care (defined as community-based or outpatient) facility administrators to conduct a targeted yet thorough assessment of multiple facility-level components of COVID-19 preparedness, inquires about basic information related to COVID-19 clinical care at the facility, with a specific focus on medical oxygen infrastructure and service delivery. Designed to be complementary rather than duplicative of other assessment tools, some additional components (i.e., human resources) that impact clinical service delivery have been included. The goal is to identify potential areas for investment and support in the face of the ongoing COVID-19 pandemic, recognizing the likelihood of recurrent surges, the shifting focus on appropriate—often decentralized—care for noncritically ill patients, and the need for resilient and sustainable health systems.

The historical time frames ask about the status of these indicators today, with some indicators asking about averages or numbers in the last week, or the last six months. Some questions ask about indicators at the time of the last “surge.”

**\*\* “Surge”** is defined as the day with the highest number of patient encounters, or the last highest hospital census day (may be within period of days or weeks) directly related to a local surge of COVID-19 cases within the last six months. Please indicate the most recent “surge” and use that day or time frame to answer other questions about surge indicators. **\*\***

Finally, this tool is modular. The first five sections are required, with an appendix of optional sections. Users are encouraged to choose sections relevant to their own needs and customize adaptation for maximal impact.

## Oxygen and COVID-19 Response Rapid Assessment Tool: Primary Care Facilities

Section 1A: DEMOGRAPHICS (required)		
<b>1.1</b>	Name of the facility	
<b>1.2</b>	Address (include district and region)	
<b>1.3</b>	Level/designation of facility	
<b>1.4</b>	Type of facility	<input type="checkbox"/> Private <input type="checkbox"/> Public (government facility) <input type="checkbox"/> Nongovernmental (NGO) <input type="checkbox"/> Other _____
<b>1.5</b>	Is your facility designated as a COVID-19 referral facility?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know
<b>1.6</b>	When was the last surge of COVID-19 at your facility? (DD/MM/YY) <i>** See definition above; use this timepoint to answer future questions that inquire about "surge"</i>	____/____/____ DD / MM /YY
<b>1.7</b>	What is the total population of your catchment area?	
<b>1.8</b>	If this assessment is completed by interview: - Name, title, and length of employment of interviewee	Name: _____ Title: _____ Length of employment: _____
<b>1.9</b>	If this assessment is completed by interview: - Name, title, organization of the interviewer	Name: _____ Title: _____ Organization: _____
<b>1.10</b>	If self-assessment, who completed self-assessment? - Name, title, length of employment <i>** Please designate who completed each section of this assessment.</i>	Name: _____ Title: _____ Length of employment: _____

Section 1B: PATIENT DEMOGRAPHICS (required)												
Completed by (name, title): _____												
How many patients are currently registered with your facility?												
Age	0-5 years			6-17 years			18-50 years			>50 years		
Gender	Male	Female	Non-Binary	M	F	Non-Binary	M	F	Non-Binary	M	F	Non-Binary
<b>#</b>												

## Section 2: GENERAL FACILITY INFORMATION (required)

Completed by (name, title): \_\_\_\_\_

2.1	<p>Please designate which clinical services are provided at this facility: <i>(Select all that apply.)</i></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Child vaccination services, either at the facility or as outreach</li> <li><input type="checkbox"/> Child growth and development services, either at the facility or as outreach</li> <li><input type="checkbox"/> Curative care services for children less than age 5, either at the facility or as outreach</li> <li><input type="checkbox"/> Any family planning services</li> <li><input type="checkbox"/> STI screening, excluding HIV testing and counseling services</li> <li><input type="checkbox"/> STI screening, including HIV testing and counseling services</li> <li><input type="checkbox"/> Antenatal care Services</li> <li><input type="checkbox"/> Normal delivery</li> <li><input type="checkbox"/> Cesarean section</li> <li><input type="checkbox"/> Postnatal care Services</li> <li><input type="checkbox"/> Diagnosis or management of noncommunicable diseases, specifically diabetes cardiovascular diseases, and chronic respiratory conditions in adults</li> <li><input type="checkbox"/> Curative care for adults with acute conditions (i.e., “sick visits”)</li> <li><input type="checkbox"/> Mental health, psychiatric care</li> <li><input type="checkbox"/> Telehealth, or virtual consultation services for patient care</li> </ul>	
2.2	How far away is the nearest health facility of a similar tier to yours?	<p><b>a. Distance (km):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> &lt;20km</li> <li><input type="checkbox"/> 21-50km</li> <li><input type="checkbox"/> &gt;50km</li> </ul> <p><b>b. Average travel time (min):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> &lt;60 min</li> <li><input type="checkbox"/> &gt;60min (<i>specify: _____</i>)</li> </ul>
2.3	How far away is the nearest regional or district hospital?	<p><b>a. Distance (km):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> &lt;20km</li> <li><input type="checkbox"/> 21-50km</li> <li><input type="checkbox"/> &gt;50km</li> </ul> <p><b>b. Average travel time (min):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> &lt;60 min</li> <li><input type="checkbox"/> &gt;60min (<i>specify: _____</i>)</li> </ul>
2.4	How far away is the nearest tertiary care hospital with ICU services?	<p><b>a. Distance (km):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> &lt;20km</li> <li><input type="checkbox"/> 21-50km</li> <li><input type="checkbox"/> &gt;50km</li> </ul> <p><b>b. Average travel time (min):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> &lt;60 min</li> <li><input type="checkbox"/> &gt;60 min (<i>specify: _____</i>)</li> </ul>
2.5	How many exam rooms does this facility have?	<ul style="list-style-type: none"> <li><input type="checkbox"/> None</li> <li><input type="checkbox"/> &lt;5</li> <li><input type="checkbox"/> 5-10</li> <li><input type="checkbox"/> 11-20</li> <li><input type="checkbox"/> &gt; 25 (<i>specify: _____</i>)</li> </ul>
2.6	How many overnight observation beds are available in this facility?	<ul style="list-style-type: none"> <li><input type="checkbox"/> None</li> <li><input type="checkbox"/> &lt;5</li> <li><input type="checkbox"/> 5-10</li> <li><input type="checkbox"/> 11-20</li> <li><input type="checkbox"/> &gt; 25 (<i>specify: _____</i>)</li> </ul>
2.7	<b>a.</b> Does this facility have a functional ambulance or other vehicle for emergency transportation for clients?	<ul style="list-style-type: none"> <li><input type="checkbox"/> Yes (<i>Specify how many: _____</i>)</li> <li><input type="checkbox"/> No</li> <li><input type="checkbox"/> Unknown</li> </ul>
2.7	<b>b.</b> Where is it stationed?	<ul style="list-style-type: none"> <li><input type="checkbox"/> At this facility</li> <li><input type="checkbox"/> At another facility</li> <li><input type="checkbox"/> Unknown</li> </ul>
2.7	<b>c.</b> Is fuel available today?	<ul style="list-style-type: none"> <li><input type="checkbox"/> Yes (<i>Specify how much: _____</i>)</li> <li><input type="checkbox"/> No</li> <li><input type="checkbox"/> Unknown</li> </ul>
2.8	<b>a.</b> If you answered NO to Q2.7 (a, b, or c), please describe the most common method of transportation for patients arriving for medical care at your facility.	<ul style="list-style-type: none"> <li><input type="checkbox"/> Walk</li> <li><input type="checkbox"/> Non-motorized vehicle</li> <li><input type="checkbox"/> Motorized personal vehicle</li> <li><input type="checkbox"/> Taxi service or non-personal vehicle</li> <li><input type="checkbox"/> Other: _____</li> </ul>

2.8	b. If you answered NO to Q2.7 (a, b, or c), please describe the most common method of transportation for patients at your health facility requiring transfer to a higher level of care (hospital) for urgent medical care.	<input type="checkbox"/> Walk <input type="checkbox"/> Non-motorized vehicle <input type="checkbox"/> Motorized personal vehicle <input type="checkbox"/> Taxi service or non-personal vehicle <input type="checkbox"/> Other: _____	
<b>The following section inquires about your average daily patient encounters within the last seven days, and the week of your highest “surge” as defined in Question 1.6. These questions are about all patients, not only those presenting for suspected or confirmed COVID-19 care.</b>			
2.9	Estimated patient encounters per day	Last 7 days: _____ Week of last surge: _____	
2.10	Estimated scheduled patient encounters per day (with appointments)	Last 7 days: _____ Week of last surge: _____ <input type="checkbox"/> There are no scheduled appointments at my facility	
2.11	Estimated walk-in/same-day patient encounters per day	Last 7 days: _____ Week of last surge: _____	
2.12	Average encounters per day of patients presenting with confirmed or suspected COVID-19	Last 7 days: _____ Week of last surge: _____	
2.13	Do you render direct clinical care to patients with COVID-19 symptoms at your facility?	<input type="checkbox"/> Yes, always <input type="checkbox"/> No <input type="checkbox"/> Sometimes <input type="checkbox"/> Unknown	
2.14	If you answered NO to Q2.13, what do you do when a patient with signs or symptoms of COVID-19 presents to your facility for care? <i>Check all that apply.</i>	<input type="checkbox"/> Send home with no care rendered <input type="checkbox"/> Send home with basic information about testing and supportive care at home <input type="checkbox"/> Send home with option for telehealth, or a virtual visit with a health care worker <input type="checkbox"/> Refer to a facility for testing only <input type="checkbox"/> Refer to the nearest hospital (higher level of care than your facility)	
<b>If you answered YES or SOMETIMES to Q2.13, please answer the following questions:</b>			
2.15	What is the average number of patient encounters per week for signs or symptoms of COVID-19?	This week: _____ Week of last surge: _____	
2.16	<b>2.16a.</b> Do you administer PCR COVID-19 testing at your facility?  <b>2.16b.</b> If NO, how far away is the nearest COVID-19 testing facility?	<input type="checkbox"/> Yes <input type="checkbox"/> No  <b>a.</b> Distance (km): <input type="checkbox"/> <20km <input type="checkbox"/> 21-50km <input type="checkbox"/> >50km <b>b.</b> Average travel time (min): <input type="checkbox"/> <60 min <input type="checkbox"/> >60min (specify: _____)	
2.17	For clinicians: In the last six months, how frequently have you empirically diagnosed a patient with COVID-19 without obtaining a diagnostic test?	<input type="checkbox"/> Never, I always confirm with a test <input type="checkbox"/> Rarely, I usually confirm with a test <input type="checkbox"/> Sometimes, depending on the patient situation <input type="checkbox"/> I usually diagnose COVID-19 without a test <input type="checkbox"/> I always diagnose without a test; testing is not available for my patients	
2.18	What is the PCR turnaround time for patients you test, or refer for testing?	<input type="checkbox"/> <24 hours <input type="checkbox"/> 24-72 hours <input type="checkbox"/> >72 hours	
2.19	Do you have rapid COVID-19 antigen diagnostic testing (RDT) available at your facility?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know	
2.20	Is there a designated triage station or separate screening area at the facility entrance to identify patients with signs or symptoms of COVID-19?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know	

<b>2.21</b>	Is there a designated area for immediate isolation of patients presenting to the facility with confirmed or suspected COVID-19?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Don't know
<b>2.22</b>	Does your facility have a triage protocol for confirmed or suspected COVID-19 patients?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Don't know
<b>2.23</b>	Does your facility have an emergency transfer protocol (clinical criteria to transfer patients exhibiting signs of complications of COVID-19 to a higher level of care)?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Don't know
<b>2.24</b>	Do you have equipment for tele-consultation or telehealth in the hospital? <i>This is defined as a dedicated set of equipment to virtually connect (audio and/or video) clinical staff with either patients or other clinical staff to render or coordinate care.</i>	<input type="checkbox"/> Yes (If YES, proceed to a, b, c) <input type="checkbox"/> No		
	<b>2.24a:</b> Is this equipment functional?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Don't know
	<b>2.24b:</b> Is this equipment in use?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Don't know
	<b>2.24c:</b> Is it used for COVID-19 care?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Don't know

### Section 3A: HUMAN RESOURCES: STAFFING AND RATIOS (required)

This section inquires about your ideal conventional staffing ratios, your current staffing levels, as well as staffing ratios that occurred during the highest census count ("surge") your facility experienced as defined in Question 1.6. You may add or modify the listed cadres to best reflect your facility's staffing structures.

Completed by (name, title):

		Total Number (approx.)	Gender			Conventional Ratio Patient/ Provider	Current Ratio Patient/ Provider	Surge Ratio Patient/Provider
			M	F	Non-Binary			
<b>3a1</b>	Doctors (general)							
<b>3a2</b>	Nurses							
<b>3a3</b>	Doctors (specialists)							
<b>3a4</b>	Midwives							
<b>3a5</b>	Non-physician providers							
<b>3a6</b>	Other clinical support staff (i.e., nursing assistants)							

**Section 3B: HUMAN RESOURCES: TRAINING (required)**

This section inquires about dedicated training events attended by the health care workforce of this facility within the last 6 months. This includes in-services, webinars, training from external organizations, etc. You may add or modify cadres to reflect your facility’s staffing structures.

Completed by (name, title): \_\_\_\_\_

		# Trained in clinical management of mild to moderate COVID-19 (including home-based care and referral pathways for severe COVID-19)	# Received training in triage, IPC, and PPE in the context of COVID-19	# Received training in clinical management of post-COVID-19 conditions	# Received training in appropriate use of medical oxygen therapy
3b1	Doctors				
3b2	Nurses				
3b3	Critical care doctors				
3b4	Critical care nurses				
3b5	Non-physician providers				
3b6	Respiratory therapists				
3b7	Anesthesia doctors				
3b8	Anesthesia technicians				
3b9	Other clinical support staff				

**Section 4. MEDICAL EQUIPMENT, SUPPLIES ,AND CONSUMABLES (required)**

This section inquires about medical equipment, supplies, and consumables.

Completed by (name, title): \_\_\_\_\_

The following questions ask about the availability of equipment in your facility. You can choose what percentage of time these items are available, or answer “never, sometimes, most of the time, almost always.” (Mark with an X.)		Never	Sometimes (25-50%)	Most of the time (50-75%)	Almost always (>75%)
4.1	How frequently is a pulse oximeter available for patients?				
4.2	How frequently is a thermometer available for patients?				
4.3	How frequently is a blood pressure cuff available for adult patients?				
4.4	How frequently is a blood pressure cuff available for pediatric patients?				
4.5	How frequently is an infant scale available for infants?				
4.6	Do you have uninterrupted electricity to the facility?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don’t know			
4.7	If NO, what is the average frequency of interruption per month?	Number of times per month: _____			
4.8	What is the average length (in hours) of a typical interruption of electricity?	Number of hours: _____			
4.9	Do you have a functioning back-up generator? a. If YES, how many hours can your generator support your facility’s electricity needs? _____ hours	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don’t know			

<b>4.10</b>	Do you have internet services at your facility?	<input type="checkbox"/> Never	<input type="checkbox"/> Sometimes	<input type="checkbox"/> Always	
<b>4.11</b>	Do you have cellular phone service at your facility? (i.e., can staff and/or clients reliably use a mobile phone at the facility?)	<input type="checkbox"/> Never	<input type="checkbox"/> Sometimes	<input type="checkbox"/> Always	
<b>4.12</b>	<b>How frequently, or what percentage of time, has the following personal protective equipment (PPE) been available for health facility staff in the last 4 weeks?</b> (Mark with an X.)	<b>Never, or very rarely</b>	<b>Sometimes (25-50%)</b>	<b>Most of the time (51-76%)</b>	<b>Almost always (&gt;75%)</b>
	N95 respirator mask				
	Surgical mask				
	Face shield				
	Gown				
	Gloves				
	Overall				
	Water and soap				
	Hand sanitizer				
<b>4.13</b>	Do you have enough PPE to consistently protect all health care workers in the event of another surge of COVID-19? (Use your highest surge census day as a benchmark.)	<input type="checkbox"/> Yes <input type="checkbox"/> No. Please explain if desired: <hr/>			
<b>4.14</b>	In the last 6 months, have clinical staff ever decided to render care without PPE?	<input type="checkbox"/> Yes <input type="checkbox"/> No. Please explain if desired: <hr/>			
<b>4.15</b>	In the last 6 months, have clinical staff ever decided to NOT render care, or to withhold care, because they didn't have PPE?	<input type="checkbox"/> Yes. Please explain if desired: <hr/> <input type="checkbox"/> No			
<b>4.16</b>	Do you provide medical oxygen to patients at your facility?	<input type="checkbox"/> Yes (If YES, complete Section 5.) <input type="checkbox"/> No (If NO, skip to Section 6.)			

**Section 5. MEDICAL OXYGEN AVAILABILITY AND INFRASTRUCTURE (If YES to Q4.16)**

This section aims to assess the supply of oxygen to the facility, delivery of the oxygen around the facility, maintenance and repair considerations, and your experiences with shortages, disrepair, or other challenges.

Completed by (name, title): \_\_\_\_\_

<b>5.1</b>	How many functional oxygen cylinders does this facility have?	# 5- to 39-liter cylinders: _____ # 40 plus-liter cylinders: _____
<b>5.2</b>	How many additional oxygen cylinders does your facility need for COVID-19 patients? (based on last "surge" as defined in Q1.6)	# 5- to 39-liter cylinders: _____ # 40 plus-liter cylinders: _____
<b>The following questions ask about the availability of equipment in your facility. You can choose what percentage of time these items are available, or answer "never, sometimes, most of the time, almost always." (Mark with an X.)</b>		
		<b>Never</b> <b>Sometimes (25-50%)</b> <b>Most of the time (50-75%)</b> <b>Almost always (&gt;75%)</b>
<b>5.3</b>	What percentage of time is the appropriate patient circuit (tubing) available for COVID-19 patients requiring medical oxygen?	
<b>5.4</b>	What percentage of time is a basic nasal cannula available for COVID-19 patients requiring supplemental oxygen therapy?	
<b>5.5</b>	What percentage of time high-flow nasal cannula is available for COVID-19 patients who require high-flow medical oxygen?	
<b>5.6</b>	What percentage of time an oxygen delivery mask is available for a COVID-19 patient requiring medical oxygen?	
<b>5.7</b>	What percentage of time oxygen flowmeters are available for COVID-19 patients?	
<b>5.8</b>	How many functional flowmeters does your facility currently have?	
<b>5.9</b>	Have you ever needed more flowmeters in the past six months?	<input type="checkbox"/> Yes (Specify how many): _____ <input type="checkbox"/> No <input type="checkbox"/> Unknown
<b>5.10</b>	How many oxygen pressure regulators (used for cylinders) do you have?	
<b>5.11</b>	Have you ever needed more pressure regulators in the past six months?	<input type="checkbox"/> Yes (Specify how many): _____ <input type="checkbox"/> No <input type="checkbox"/> Unknown
<b>5.12</b>	How many oxygen concentrators do you have?	
<b>5.13</b>	How many of the oxygen concentrators are currently functional?	
<b>5.14</b>	How many concentrators produce 6-10 liters oxygen/min?	Total: _____      Functional: _____
<b>5.15</b>	How many concentrators generate 1-5 liters oxygen/min?	Total: _____      Functional: _____
<b>5.16</b>	How many more concentrators does the facility need for COVID-19 patients (based on last surge)?	
<b>5.17</b>	Does this facility use a liquid oxygen (LOX) system? (If yes, answer 5.18. If no or unknown, proceed to 5.19)	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
<b>5.18</b>	Is the liquid oxygen (LOX) system fully functional?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
<b>5.19</b>	Does this facility use a PSA plant?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
<b>5.20</b>	Is the PSA plant fully functional?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown

5.21	What is the reason the PSA plant or liquid oxygen system is not functional?	<input type="checkbox"/> In disrepair <input type="checkbox"/> Lack of operations/maintenance staffing <input type="checkbox"/> Power supply disruption	<input type="checkbox"/> Unknown <input type="checkbox"/> Other: _____
5.22	Do you have a resource to procure spare parts for the PSA plant?	<input type="checkbox"/> Yes, always	<input type="checkbox"/> Yes, sometimes <input type="checkbox"/> No <input type="checkbox"/> Unknown
5.23	Have you ever completely run out of oxygen in the last 6 months?	<input type="checkbox"/> Yes	<input type="checkbox"/> No <input type="checkbox"/> Unknown
5.24	If YES to Q5.23, how many times in the last 6 months?		
5.25	If YES to Q5.23, please select a reason why you ran out of oxygen (Check all that apply.)	<input type="checkbox"/> Supplier did not have oxygen <input type="checkbox"/> Disruption in transportation or delivery of oxygen <input type="checkbox"/> Shortage of cylinders <input type="checkbox"/> Malfunction of equipment for filling or transporting oxygen cylinders	<input type="checkbox"/> Malfunction of facility-level equipment (i.e., had oxygen, but could not deliver to patients due to on-site malfunction) <input type="checkbox"/> Unknown <input type="checkbox"/> Other: _____
5.26	On average, how many days before oxygen supply was restored?		
5.27	What is the average monthly cost of your facilities' oxygen system?	<b>a.</b> If known, average monthly cost of oxygen: _____ <b>b.</b> If known, average monthly cost of maintenance and repairs: _____	
5.28	Do you think your oxygen supply/system will be adequate if you have another surge of COVID-19 patients?	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5.29	If NO to Q5.28, which best describes your main concern?	<input type="checkbox"/> We cannot procure oxygen from a supplier <input type="checkbox"/> We cannot procure the equipment to get the oxygen to patients <input type="checkbox"/> We have equipment in disrepair and cannot procure new or spare parts <input type="checkbox"/> We have equipment in disrepair, but no technicians trained to service it <input type="checkbox"/> We have regular power supply issues interrupting oxygen delivery <input type="checkbox"/> Our clinicians are not trained appropriately in use of medical oxygen <input type="checkbox"/> Other: _____	
5.30	What is the name of your primary oxygen supplier?		
5.31	Approximately how far is the oxygen supplier from the facility?	km: _____	
5.32	How much oxygen does this company produce and supply every month? (cubic meters)	Total cubic meters: _____	
5.33	What is the cost per cubic meter (estimate)?		
5.34	Who pays for the oxygen?	<input type="checkbox"/> Hospital/facility <input type="checkbox"/> Ministry of Health <input type="checkbox"/> Private sector	<input type="checkbox"/> NGO/grant funding <input type="checkbox"/> Other: _____

***Thank you for your time and for the information shared.***

## Rapid Assessment Tools: Optional Appendices

The following assessments may be considered optional, but are encouraged. Please complete the Perinatal/Pediatrics section if your facility cares for these patient populations.

### Section 6. WELLNESS/MENTAL HEALTH (optional)

These questions are intended for administrators to provide some information for how mental health and burnout among the health care work force has been addressed before and during the COVID-19 pandemic. Please enter N/A if not applicable, or your facility has not made specific changes.

Completed by (name, title):

6.1	Has your facility or health care organization formally considered interventions to address mental health, wellness, and/or burnout among health care workers and staff?	<input type="checkbox"/> Yes, prior to the pandemic <input type="checkbox"/> Yes, during the pandemic <input type="checkbox"/> Yes, and we plan to continue after pandemic <input type="checkbox"/> No, but we are considering such interventions <input type="checkbox"/> No, not considering
6.2	Has your facility changed any of the following since the start of the COVID-19 pandemic?	<input type="checkbox"/> Work hours for health care workers <input type="checkbox"/> Salary changes <input type="checkbox"/> Staffing/ratio changes, or task shifting <input type="checkbox"/> Security measures to protect health care workers <input type="checkbox"/> Policy change, or other support for health care workers to miss work if they are feeling unwell <input type="checkbox"/> Changes to physical environment (e.g., spacing to allow for physical distancing, or cohorting of patients)
6.3	Has your facility implemented any of the following interventions?	<input type="checkbox"/> Wellness initiatives (general) <input type="checkbox"/> Specific initiatives to prevent burnout <input type="checkbox"/> Peer support/clinician peer group development <input type="checkbox"/> Access to formal mental health services (therapy, psychiatry) <input type="checkbox"/> Specific interventions to support women (who compose 70% of the global health workforce)
6.4	In the last 6 months, has your facility screened health care staff for signs of poor mental health and/or burnout?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know
6.5	<b>6.5a.</b> Do you feel that health care worker burnout is impacting patient care?  <b>6.5b.</b> Are you interested in specific technical assistance for health care worker mental health, well-being, and burnout prevention?	<input type="checkbox"/> Yes <input type="checkbox"/> No  <input type="checkbox"/> Yes <input type="checkbox"/> No

### Section 7: Special Populations—PERINATAL AND PEDIATRICS (optional)

This section is designed to assess the facilities' capacity for perinatal and/or pediatric care relevant to COVID-19 care and medical oxygen therapy. Please skip if your facility does not manage perinatal or pediatric cases.

Completed by (name, title): \_\_\_\_\_

<b>7.1</b>	Does your facility have a perinatal unit for deliveries in the facility?	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>7.2</b>	Does your facility perform surgical obstetrical services (C-section)?	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>7.3</b>	How many beds for labor, birth, and immediate postpartum care?	
<b>7.4</b>	How many live births per year?	
<b>7.5</b>	How many perinatal patients have required surgical interventions (i.e., Cesarean section) in the last six months?	
<b>7.6</b>	How many postpartum hemorrhages in the last six months?	
<b>7.7</b>	How many maternal deaths in the last six months?	
<b>7.8</b>	How many doctors at your facility manage perinatal patients?	
<b>7.9</b>	How many midwives at your facility manage perinatal patients?	
<b>7.10</b>	How many nurses at your facility manage perinatal patients?	
<b>7.11</b>	How many pregnant patients have presented to your facility with COVID-19 in the last six months?	
<b>7.12</b>	How many pregnant patients with COVID-19 have required medical oxygen therapy in the last six months?	
<b>7.13</b>	On average, what percentage of perinatal patients have needed oxygen but didn't receive it in the last six months? ( <i>Select one</i> )	<input type="checkbox"/> <50% <input type="checkbox"/> 50-75% <input type="checkbox"/> 76-100%
<b>7.14</b>	Does your facility offer curative services for pediatric patients (i.e., children with acute illnesses)?	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>7.15</b>	How many patients under age 5 have required medical oxygen therapy in the last six months?	
<b>7.16</b>	How many patients under age 5 have presented with COVID-19 in the last six months?	
<b>7.17</b>	On average, what percentage of pediatric patients have needed oxygen but didn't receive it in the last six months? ( <i>Select one</i> )	<input type="checkbox"/> <50% <input type="checkbox"/> 50-75% <input type="checkbox"/> 76-100%
