

BREAKTHROUGH

Annual Report 2016

BREAKTHROUGHS

happen when we
push ourselves
to think differently
and persist in the
face of adversity,
when we

**REIMAGINE
WHAT IS
POSSIBLE.**

This year,
FHI 360's
annual report
celebrates breakthroughs
— both groundbreaking
discoveries and the fresh
insights they generate that
can be just as powerful.

From facilitating local dialogue about the root causes of violent extremism in northern Africa, to cutting-edge research to end HIV, to a unique partnership in the United States that responds to the education needs and aspirations of Washington, DC's youth, we are clearing obstacles and creating opportunities for people in communities in the United States and around the world to live healthy, productive and meaningful lives.

I invite you to explore the full report at 2016annualreport.fhi360.org and learn how we are confronting the increasingly complex challenges that affect us all.

Warm regards,

PATRICK C. FINE
CHIEF EXECUTIVE OFFICER, FHI 360

FINANCIAL SUMMARY

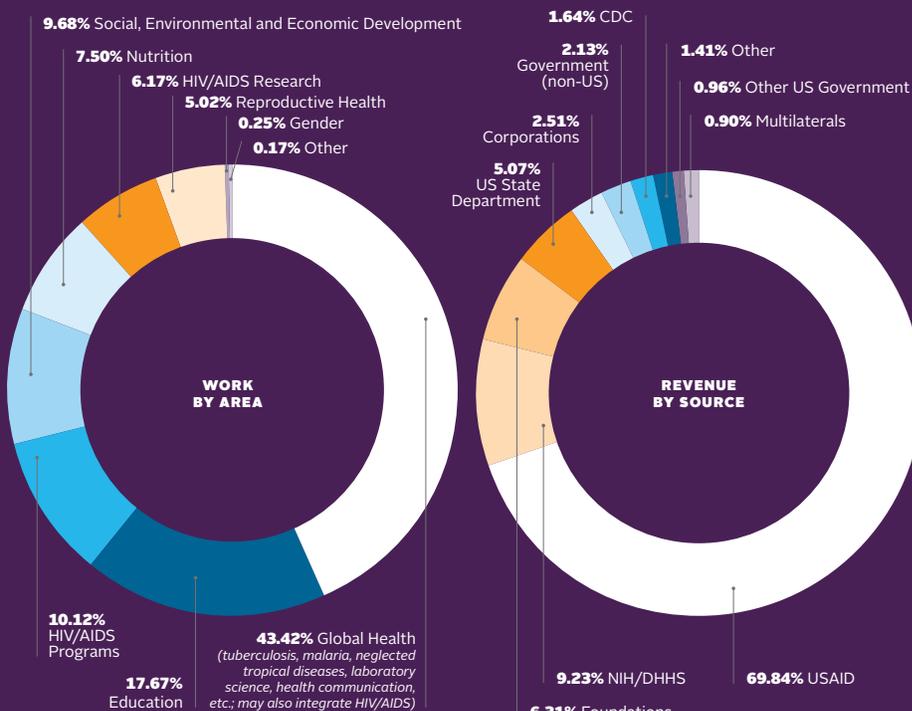

Twelve months to September 30, 2016 (Unaudited)

Revenue (US Dollars)

US Government	607,122,043
Foundations/Individuals	44,196,642
Corporations	17,566,509
Other Governments	14,922,740
Other	9,900,133
Multilateral Agencies	6,296,253
TOTAL	700,004,320

Expenses (US Dollars)

Operational Expenses and Programs	584,999,433
General and Administrative	95,754,247
Business Development	12,541,450
TOTAL	693,295,130

Crosscutting areas, such as technology, gender and youth, among others, are integrated into many of our programs.

2016 HIGHLIGHTS

The power of every breakthrough is multiplied — and made more enduring — by strong partnerships.

Quality Evidence

Identified the most cost-effective and nutritious interventions for the first — and very critical — 1,000 days of a child's life through four large-scale randomized clinical trials in **Bangladesh, Burundi, Guatemala** and **Malawi**.

Spearheaded early-stage research to determine whether a new technology — microneedle patches — can serve as an additional system for delivering contraceptive hormones to women.

Advanced the conversation about how technology can aid brain development and narrow or close gaps in children's development, particularly for children in the **United States** with disabilities or at risk of developmental delays.

A person in a brown robe is standing in shallow water, holding a large, vibrant red net. The background shows a sunset over a body of water with a bridge in the distance. The scene is framed by a white border.

A BREAK- THROUGH IS A DISCOVERY.

It upends assumptions, razes barriers and opens up possibilities to enable new ways of thinking.

Data-Driven Decisionmaking

Developed an Android-based app that gathers information on schools in real time and transmits that data with or without an internet connection. In 2016, the m360 School Information System was operating in more than 4,400 schools and 1,100 administrative and support offices in **Tanzania**.

Analyzed the factors that prevent youth in **Colombia**, the **Dominican Republic** and **El Salvador** from obtaining employment. A 10-month investigation of the transition from secondary education to work looked at how to bridge the skills gap.

Expanded Opportunities

Brought together civil society organizations in the **Maghreb** and **Sahel** regions to identify the drivers of violent extremism in their communities and take action to develop local solutions.

Rapidly scaled up HIV testing and treatment in internally displaced persons camps in **Nigeria's Borno State**. HIV testing and treatment services were virtually unavailable in this conflict zone.

Originating funders for calendar year 2016.

We have made every attempt to ensure the accuracy of this list and ask that you please email us at funderslist@fhi360.org if you find an error or omission.

We express our gratitude to the individuals who support FHI 360 programs. These gifts enable us to expand our reach while deepening our search for solutions to today's most challenging issues in human development.

MISSION

To improve lives in lasting ways by advancing integrated, locally driven solutions for human development.

MAY 2017

FHI 360 AT A GLANCE

We serve more than 60 countries, including the United States.

In addition, representatives from 157 countries participated in our international exchange program activities in 2016.

In 2016, FHI 360 experts authored or contributed to 179 peer-reviewed journal articles.

96% of our personnel in countries or regional offices are from the country or region in which they work.

Integrated Approach

Our 360-degree perspective enables us to work across a broad set of disciplines to deepen our understanding of complex issues and develop customized responses that address multiple aspects of people's lives.
