

## FOUNDATIONAL PHASE

Engage policymakers, researchers, program implementers, civil society, and citizens in understanding existing bodies of evidence, identifying gaps in evidence and practice-informed research needs, and setting research priorities

## INSTITUTIONALIZATION PHASE

### UPTAKE AND PRACTICE

- Scale-up proven interventions
- Maintain program, policy, or practice as established activity
- Secure sustainable source of financing
- Evaluate impact

### UPTAKE AND PRACTICE

- Technical assistance
- Study tours
- Policy revisions or updates
- Documentation, monitoring, and improvement
- Capacity building

## RESEARCH PHASE

### EVIDENCE PRODUCTION

- Conceptualize study and develop research utilization plan
- Implement study
- Analyze, synthesize, and publish results

### DECISION TO TRANSLATE

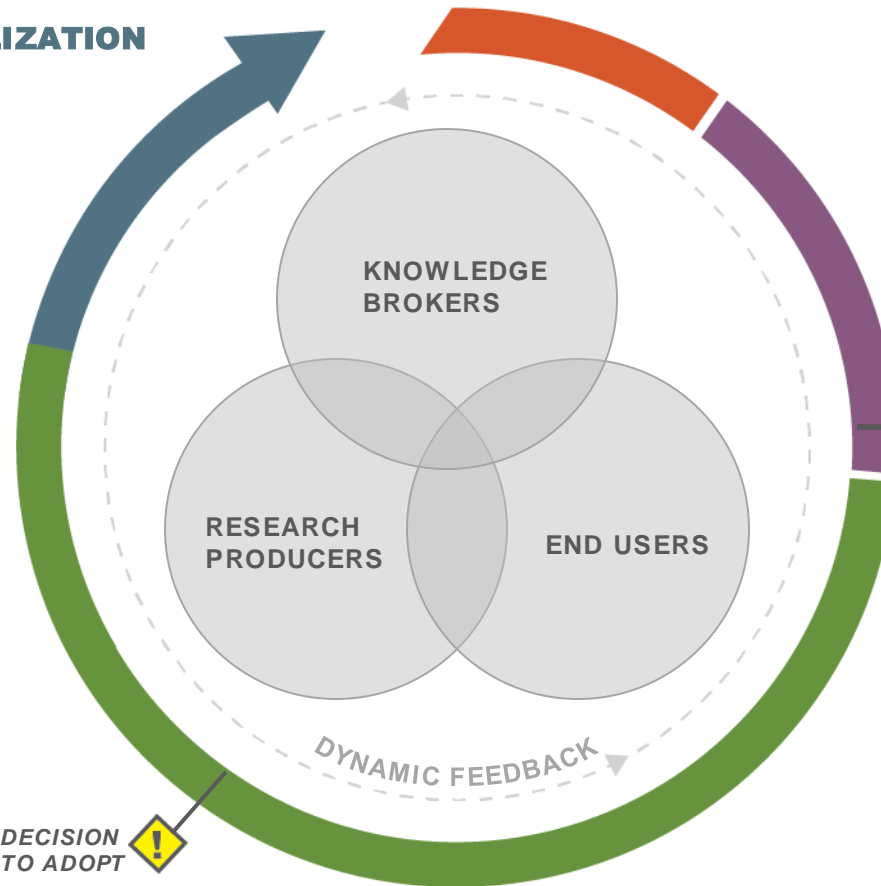

## TRANSLATION PHASE

### KNOWLEDGE INTO PRODUCTS

- Evidence briefs
- Technical guidelines
- Program and intervention guidance
- Job-aids

### DECISION TO ADOPT

### DISSEMINATION

- Stakeholders meetings and dialogues
- National and international level conferences
- Advocacy campaigns
- Print and electronic media
