

GOING ONLINE

TO ACCELERATE THE END OF AIDS

Satellite Session – 10th International AIDS Society Conference on HIV Science

Tuesday July 23, 2019

6:30-8:30 PM, CDT

Palacio de Iturbide 3 (SR8)

JOIN US

Please join satellite session organizers FHI 360/ LINKAGES, WHO, UNAIDS, Global Fund, and MPact to discuss a vision for safely and effectively using online and mobile platforms to accelerate progress toward epidemic control, particularly among key populations. Presenters will share and discuss new data and promising practices related to three key areas:

1. Using online tools and methodologies to learn about audiences who can be reached online and collect data to inform program planning
2. Designing and implementing tailored online outreach and support strategies that are effective at engaging key populations in offline services and improving HIV cascade outcomes
3. Ensuring that programming implemented with key populations in an online environment is ethical, safe, and private for program beneficiaries and implementers
