

MHURI / IMULI PROJECT

Establishing maternal, newborn, and child health skills laboratories

Constance Mundoringisa-FHI 360, Jane Mandimutsira - PMD Manicaland, Dr. Davidzoyashe Makosa - MOHCC

Background

Skills labs are specially equipped rooms that are used as training facilities in the workplace.

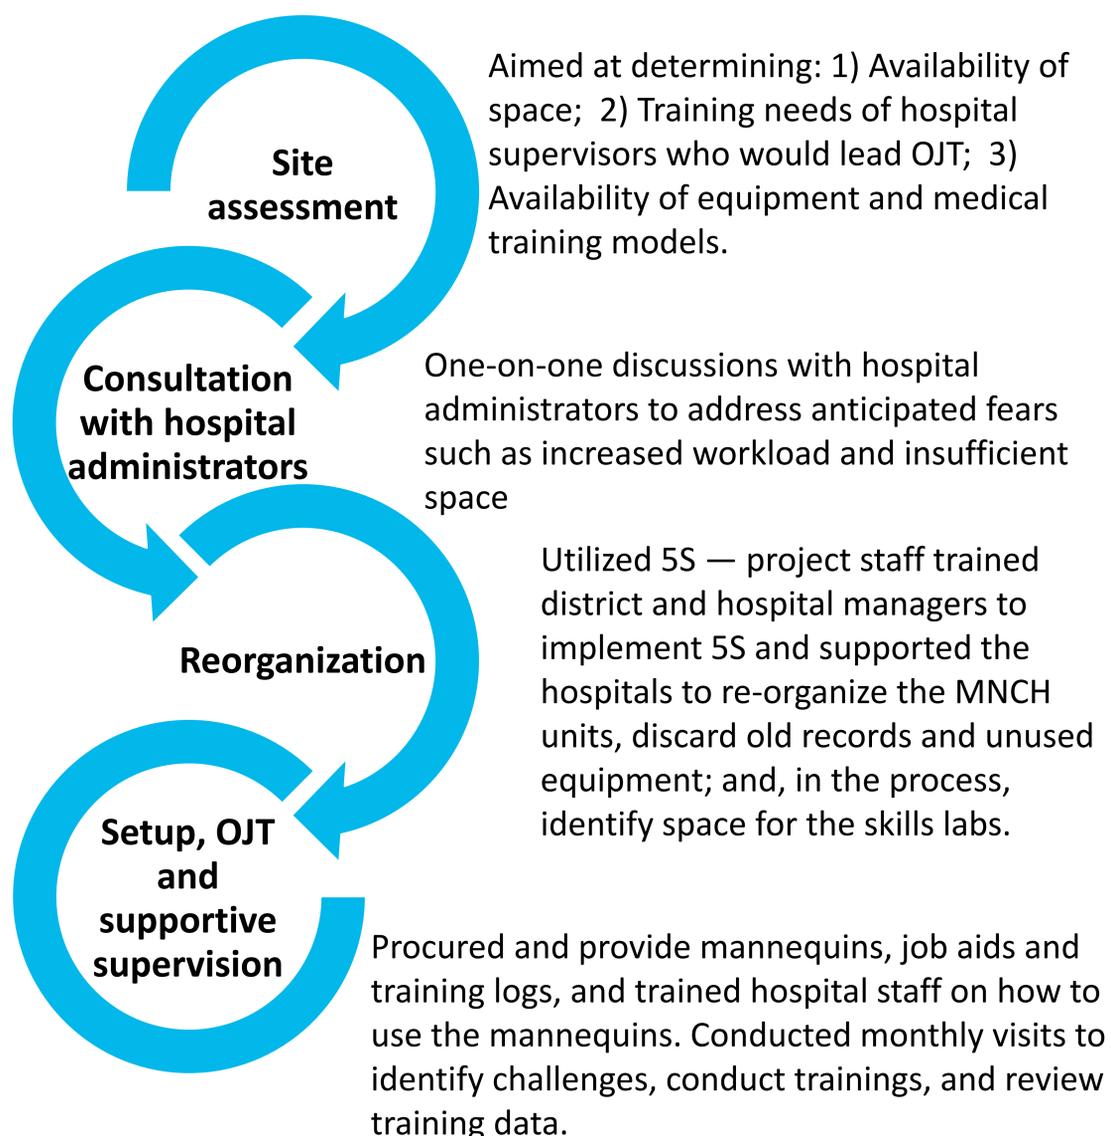

Mhuri / Imuli set up skills labs at MPH and all secondary-level hospitals in Manicaland province.

The aim was to support continuous, needs-driven on-the-job training (OJT) of health care providers.

Process

Next Steps

- Facilitate scale-up to other secondary-level facilities and to primary care facilities.
- Integrate electronic modules for e-learning
