

BUILDING BLOCKS STUDENT WORKSHEET

Customizing your new vehicle

Have you ever seen a really nice vehicle driving down the street and wished it was yours? Did you stop to think about how much the vehicle cost?

Understanding how different options affect a vehicle’s final cost can help you decide what you’re willing to pay for when you’re old enough to buy a vehicle.

Instructions

- 1 Choose a new vehicle you’d like to customize: sedan, sports car, SUV, or truck.
- 2 Select one option in each category on the vehicle options list for the type of vehicle you chose.
- 3 Write the options you chose and their prices on the worksheet and then calculate the vehicle’s final price.
- 4 Answer the reflection questions.

Note that the options and prices listed are for example only; actual options and prices may be different.

Your new vehicle

Type of vehicle: _____

Selected options	Price
Style option	
Engine	
Drive system (SUV or truck only)	
Cab option (truck only)	
Roof option (sports car only)	
Interior
